Summary

How to increase the expressive strength of the Basque language

How to give more substance to language: literature and orality

The *bertsolari* (verse improvisor) and writer, Miren Amuriza, puts forward a series of proposals with a view to giving more expressive strength to literary language based on oral language and all phases of the writing process. Miren Amuriza

Dissident genders in search of words

The feminist researcher, Amaia Alvarez Uria, and feminist journalist, June Fernandez Casete, research into the contribution made by the LGTBI+ community to expressiveness in the Basque language. Their analysis kicks off with the *Marioker-rak* project and concludes with the proposals made by groups and members of the community. Amaia Alvarez Uria • June Fernandez Casete

Towards freedom of expression, overcoming insufficiency of expression

The sociolinguist, humourist and communicator, Kike Amonarriz Gorria, explains the importance and benefits of Basque speakers having a suitable level of expressiveness, and also suggests keys and guidelines for improving communicative competence both within and outside school. Kike Amonarriz Gorria

Languages of cultures, cultures of languages: linguistic-ideological options in cultures

The cultural educator, Iratxe Retolaza Gutierrez, taking the different areas of Basque culture as a core feature, reflects on the linguistic options adopted in cultural activities. She does so to raise some questions about linguistic ideologies, sociocultural stances and sociopolitical identities that languages may embody within the field of culture. Iratxe Retolaza Gutierrez

Three outlooks: expressiveness of the Basque language in writing

The journal has addressed three people with a proven track record in the field of writing –literature, translation, publishing and journalism– with a view to gathering their opinions about the main models, keys and paths for cultivating and developing expressiveness in the written Basque language. Specifically, the questions that have been raised centre around the following three points: an approach to the definition of expressiveness; concerns and practical challenges facing expressive language; tools, models and solutions for developing expressiveness. Garazi Arrula Ruiz • Gorka Bereziartua Mitxelena • Danele Sarriugarte Mochales
